

Corrosion in practice

Recognition and prevention

Online Training

ONLINE TRAINING IN ENGLISH LANGUAGE ***in cooperation with METALogic***

✓ Training objectives

In order to prevent corrosion, knowledge about the different corrosion mechanisms is needed. The goal of this training course is to provide the basics to understand the different corrosion forms and tools how to prevent corrosion in practice.

The first part of the course deals with the fundamentals of corrosion. We believe that basic knowledge of corrosion theory facilitates understanding of the different corrosion mechanisms. The course is illustrated with examples of failure cases so that the participant learns how to recognize the different forms. In the third part the focus is on corrosion prevention and mitigation. An overview of the different engineering materials will be given together with their use and limitations. Other means of corrosion prevention that are included in this course are the use of inhibitors (treating the medium), galvanic protection, coatings and liners (reducing the metals' vulnerability).

✓ Topics

- Module 1: Fundamentals of corrosion
- Module 2: Corrosion mechanisms:
 - Uniform corrosion
 - Pitting corrosion
 - Galvanic corrosion
 - Crevice corrosion
 - Microbiologically influenced corrosion
 - Stress-corrosion cracking
 - (Corrosion-) fatigue
 - Corrosion under insulation (CUI)
- Module 3: Prevention and mitigation:
 - Material selection
 - Treating the medium
 - Reducing the metals' vulnerability

✓ Target group

People with a technical background in general and engineers (e.g. maintenance and reliability engineers) in particular. However, the program can be followed by anyone with interest in materials or who wants to understand how materials interact with the environment.

Registration

✓ Dates

Please mark the desired date and return the scanned form by E-Mail.

x	Course-no.	Course	Date	Duration	Location	Cost excl. VAT

We are interested in implementing an Inhouse-Training. Please contact us.

✓ Course completion

Confirmation of Participation

✓ Requirements for attendance

No requirements

✓ Information & contact

The International Training Courses are offered in English language as inhouse trainings on demand and partly as classroom trainings through our affiliate companies as well as online training courses.

We would be glad to send you an offer tailored to meet the needs of your company. Please give us some detailed information about your needs!

For further information, please contact: academy@tuv.at, +43 (0)5 0454-8174

Registration: academy@tuv.at | www.tuv-academy.at

Company	
Address (street address, postal code, city)	
Billing address (if different)	
Please send the invoice: <input type="checkbox"/> to the following email address: <input type="checkbox"/> by post	
Title	First name
Last name	
Position	Date of birth (for confirmation of participation)
Telephone number	Your order number (if applicable)
Personal email address of the participant	Date/stamp

Extract from the terms and conditions of participation: The General Terms and Conditions of TÜV AUSTRIA AKADEMIE GMBH as specified at <http://www.tuv-academy.at/TaC> apply in their entirety. The participation fees must be paid by bank transfer within two weeks after receipt of the invoice. Classroom training sessions may be cancelled in writing by TÜV AUSTRIA AKADEMIE GMBH up to 6 business days (Mon–Fri) before the start of a session. In this case, already paid participation fees will be refunded; further claims are excluded. Transfers and cancellations must be made in writing. They are free of charge up to 7 working days (Mon–Fri) before the start of the event. As from 6 working days up to 1 working day before the start of the event, 10 percent of the participation fee will be charged for transfers and 30 percent for cancellations. In case of no show or cancellation as from the (first) day of the event, the complete participation fee will be charged; transfers are then no longer possible. We gladly accept a substitute participant. We provide access to an e-learning product ordered by you within two working days. The right of withdrawal expires as soon as you open the first e-learning session.

Data protection information according to Article 13 of the GDPR: TÜV AUSTRIA AKADEMIE GMBH uses your data for the processing of booked services and purchased products. The processing of this data is a necessary prerequisite for the completion of contract. Furthermore, your data is used for direct marketing purposes (communication sent via post and email as well as event invitations) on the basis of a legitimate interest. Please familiarise yourself with the full data protection declaration. You will find this at www.tuv-academy.at/privacystatement. If you do not agree to the use of your personal data being used for direct marketing purposes, please inform us of these by post at TÜV AUSTRIA AKADEMIE GMBH, TÜV AUSTRIA-Platz 1, 2345 Brunn am Gebirge, Austria or by email at akademie@tuv.at.
